

What is Pedagogy?

“ I have noticed that Rosie has been having a desire to climb the tree. She has used a lot of language throughout the big body play; acknowledging what she feels comfortable with and what makes her feel unsafe, what she can do and what she is yet to do...setting goals to reach the top of the tree. I look forward to what summer brings when the pine cones start to grow and what her plans grow to be.”

- Preschool 2 Program - May Court -

Pedagogy is “the understanding of how learning takes place and the philosophy and practice that support that understanding of learning”.

Curriculum (the content of learning) and pedagogy (how learning happens) in early years settings are shaped by views about children, the role of educators and families, and relationships among them.

The pedagogical document (How Does Learning Happen?) helps educators focus on these interrelationships in the context of early years environments.
