Hello Parents,

I am pleased to announce that we are launching a new and exciting software program that we hope you'll enjoy. The program is called HiMama.

What is the HiMama program?

Hi Mama will be used by our staff to record activities on their tablets as they happen throughout the day to keep you informed on everything from nutritional information to fun moments and learning activities.

It will provide you with real-time email updates and access to a complete history of your child's experience in our program with photos stored safely and securely in a journal format that you can access from home or through mobile apps.

What does this mean for me?

HiMama will keep you informed by providing you with digital updates on your child to complement our important face-to-face interactions. It's also a great way to reinforce your child's in-program learning at home as you'll have timely insight into what they've been working on throughout the day.

Is there anything I have to do?

Updates will be sent via email to the parents of each child. Please send back the bottom of this letter with you and your spouse's email address at your earliest convenience so we can get your family started.

You will receive an invitation from HiMama in the next few days after we've received your email addresses. At this point you will want to create an account so you can access the history of your child's activities and add your own milestones, in addition to receiving the updates from us. If you want to share these updates with additional family members, you can do so once you've created an account. The option to do this found under the "crew" tab. When adding "crew members", please check off the second and/or third setting only. The first setting is for parents only. If you have any questions, please see the office.

If you're interested in learning more, you can visit the HiMama website at www.himama.com.

Please continue to use our current methods of communicating (office email, GTFRC website and telephone) with the office or staff for things like absences, fees or scheduling questions, etc. The staff are busy in their program and may not return messages in a timely manner through the Himama software.

Debbi Sluys, GTFRC Director

----- Please cut and return to office.
